

**RE-CREW project will guide your company to Successful Talent Acquisition!**  
**Unlock your hiring and recruiting potential & set a strong employer brand!**

### **Explore Our Remarkable Journey So Far!**

Human resources are vital for every business. The RE-CREW project was established to aid business leaders in finding the necessary personnel to effectively manage their SMEs amidst the challenges posed by the pandemic and other issues. The objective of RE-CREW is to actively and efficiently support SMEs in recruitment. Our team has taken the necessary steps right from the beginning to ensure the successful implementation of the project.

The world is undergoing rapid changes, and our aim is to enable SMEs to successfully navigate the new labor market challenges. This will be achieved through the project's outcomes, such as an innovative VET learning program and a Digital Assessment Tool. These tools will address various aspects, including the hiring process, workplace well-being, corporate social responsibility in hiring practices, as well as formulating and communicating values to attract suitable employees.

**Check our journey until today! What have we achieved so far?**

#### **09.2022: Our journey begins!**
